COACHBUILDER INFORMATION UPDATE

Date: July 23, 2013
Bulletin Number: XTS 22
Subject: MY 2014 XTS Fuel Economy Ratings and Emission Documentation

To: Cadillac Master Coachbuilders

Please review the information below and attached and forward to all appropriate individuals within your organization.

This information from General Motors should assist you as a final stage vehicle manufacturer of 2014 XTS Cadillac professional vehicles equipped with the W30, V4U or B9Q options.

The issues addressed are:
1) Federal fuel economy of converted vehicles
2) Determination of applicable gas-guzzler taxes
3) Emission certification of converted vehicles

The following information is from General Motors' Emission and Fuel Economy Certification Testing of Data Vehicles simulating conversions of 2014, 3.6L Cadillac professional vehicles at different inertia weight classes. The vehicles have been certified to Federal and California emission standards (see attachments).

If you have any questions, please contact Ray Bush at 313-268-7784.

Vehicle Inertia Weight Class	Fuel Economy Label (City/Hwy/ Comb mpg)	Annual Fuel Cost**	Gas-Guzzler Adjusted Combined Fuel Economy Values (mpg)	Gas-Guzzler Level	Gas-Guzzler Tax Amount
4,500 lbs.	18/28/21	$2,500			$0
5000	15/23/18	$2,900			$0
5500	15/21/17	$3,100	22.1	1	$1,000
6000	15/21/17	$3,100	22.1	1	$1,000
